## palette SERENITY

The **SERENITY** palette contains 9 colours shown below.  
The colour base consists of 5 shades of grey supplemented with 4 accent colours  
that allow you to create an unlimited number of designs.

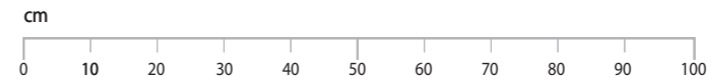

We have carefully selected a range of timeless greys, creating a tonal gradation of shades.  
To complement them we have added some unique accent colours:  
captivating jade green and deep golden shade of the ochre.  
The palette will also include the blue-gray colour of the sky, as well as a delicate, sandy beige for contrast.

All artworks have been designed to show the possibility of creating a variety of patterns:  
from a simple herringbone and canvas texture, through the detailed mosaics and stylish soft arches.

Your carpet does not have to be boring! This brochure presents that by using well combined and  
coordinated colours (and a little bit of imagination!) your carpet can give a unique character to the interior!

We are also inviting you to have a look at our other  
design collection based on natural, undyed wool - PURELANA.
